#### MANAGEMENT DISCUSSIONS ON THE INDUSTRY SCENARIO & OUTPUTS

Global Textiles and Apparel Trade estimated at USD 764 billion in 2017 was growing at a Compounded Average Growth Rate (CAGR) of 3.4%. The Covid-19 has affected the growth in the Global Textiles and Apparel trade since March 2020. Many Brands have stopped procurement from March 2020. Normalcy can be returned gradually over and above 9–12 months.

India is one of the key players in the Global Textile Industry. India has good raw materials base and manufacturing strength across the production chain. India is the second largest exporter in the Global Textiles & Apparel Trade, next to China with an estimate turnover of US \$ 39 billion in 2018-19. The

## Board's Report

Indian Textile Industry occupies a key position in the Indian Economy providing direct employment to about 50 million people contributing about 2% of GDP.

With the strong domestic consumption and buoyant export demand, Indian Textile and Apparel exports trade was growing at a CAGR of 3.7%. However with the impact of Covid-19 the growth rate will sharply decline in 2020-21.

The strained relation between USA & China is expected to provide more opportunity for Indian Textile Industry for increasing the exports to US.

Volatility in Cotton prices, higher interest rates, reduction in export incentives, huge labour turnover and thin profit margin are the major challenges faced by Textile Mills in the country. At the same time there is good potential for the growth in Textile and Apparel production due to the consistent growth in the domestic and export markets. The company has added new large volume customers in the garment export business. To mitigate the impact of COVID as a proactive measure, the company ventured in to the new segment of manufacturing washable and reusable face masks made out of treated woven and knitted fabric and well designed PPE Kits and supplied to a large number of industrial houses, educational institutions, hospitals and public at large. The masks and PPE Kits are supplied under the brand name SUPERA SHIELD. These masks and PPE kits have received overwhelming response and very much appreciated for its quality by eminent personalities.

Loyal Textile Mills has four textile mills, one process house and a garment division. The Company is focusing on continuous improvement in production and cost reduction measures. The Company has established its credentials both in the domestic and export market, through supplying quality products.

### Annexure III FORM MR-3 SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31<sup>ST</sup> MARCH 2020

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,  
The Members,  
Loyal Textile Mills Limited  
21/4, Mill Street,  
Kovilpatti – 628 501,  
Tamil Nadu

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **LOYAL TEXTILE MILLS LIMITED** (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31<sup>st</sup> March, 2020 ('Audit Period'), complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31<sup>st</sup> March, 2020 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):

- a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - b) The Securities Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
  - c) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and amendments thereof;
  - d) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 – **(Not applicable)**;
  - e) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 – **(Not applicable)**;
  - f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client – **(Not applicable)**;
  - g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 – **(Not applicable)**; and
  - h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 – **(Not applicable)**.
- (vi) I have examined the adequacy of systems and processes in place to monitor and ensure compliance under the other applicable Laws, Rules, Regulations and Guidelines prescribed under various acts which are specifically applicable and as identified by the Company and categorized under the following major heads / groups:
- a) Acts and Rules under prevention and control of pollution.
  - b) Acts and Rules relating to Environmental protection and energy conservation.
  - c) Acts and Rules relating to hazardous substances and chemicals.
  - d) Acts and Rules relating to electricity, motor, vehicles, explosives, fire service, boilers, gas cylinders, Petroleum, etc.
  - e) The Information Technology Act, 2000 and rules made there under.
  - f) Land Revenue Laws.

## Board's Report

- g) Other local laws as applicable to the plant and office.
- h) Labour laws and other incidental laws related to labour and employees appointed by the Company including those on contractual basis as relating to industrial disputes, wages, bonus, gratuity, provident fund, insurance and
- i) All other laws applicable to the textile industry.

### I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards with respect to Meetings of Board of Directors (SS-1) and General Meetings (SS-2) issued by The Institute of Company Secretaries of India
- (ii) The Listing Agreement entered into by the Company with stock exchange (BSE Limited) pursuant to the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. as mentioned above.

### I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors under the provisions of the Act and the LODR Regulations, 2015 for the year under review. The changes in the composition of the Board of Directors that

took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings. Agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Decisions were carried out by majority, while the dissenting members' views are captured and recorded as part of the minutes.

**I further report that** there are adequate systems and processes in the Company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

**I further report that** during the audit period there were no events/actions having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc.

This Report is to be read along with **Annexure A** of even date which forms integral part of this Report.

## Independent Auditor's Report

### Independent Auditor's Report

To the Members of Loyal Textile Mills Limited

### Report on the Audit of the Standalone Ind AS Financial Statements

#### Opinion

We have audited the Standalone Ind AS Financial Statements of **M/s. LOYAL TEXTILE MILLS LIMITED** ('the Company'), which comprise the Balance Sheet as at 31 March 2020, the statement of Profit and Loss, the statement of cash flows and the statement of changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2020, and its profit/loss including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under provision of the Companies Act, 2013 and the Rules thereunder, and have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have no material matters or issues to be reported upon.

### Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Standalone Ind AS Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant Rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## Independent Auditor's Report

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting (We draw attention to note no.32(ii)(a) in the financial statements along with the matters set forth to state that there is no material uncertainty that exists which may cast significant doubt on the company's ability to continue as a going concern. Our opinion is not modified in respect of this matter) and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw Appendices 87 attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Those Charged With Governance regarding, among other matters, the planned scope and

timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Those Charged With Governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Those Charged With Governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - (b) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - (c) the Balance Sheet, the Statement of Profit and Loss, the Statement of Cash flows and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
  - (d) in our opinion, the aforesaid Standalone Ind AS Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with relevant rule issued thereunder;
  - (e) on the basis of the written representations received from the Directors as on 31<sup>st</sup> March 2020 and taken on record by the Board of Directors, none of the Directors is disqualified as on 31<sup>st</sup> March 2020 from being appointed as a Director in terms of Section 164(2) of the Act; and
  - (f) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

## Independent Auditor's Report

- (g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- (i) the Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note No. 32 to the financial statements;
  - (ii) the Company did not have any long-term contracts, including derivative contracts; and
  - (iii) there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure B, a statement on the matters specified in the paragraph 3 and 4 of the order, to the extent applicable.

## Independent Auditor's Report

### ANNEXURE "A" to the Independent Auditor's Report of even date on the Standalone Ind AS Financial Statements of Loyal Textile Mills Limited

#### Report on the Internal Financial Controls under Clause (i) of Sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Loyal Textile Mills Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of

internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditor's judgement, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and Directors of the company; and
- (iii) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone Ind AS financial statements.

#### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Independent Auditor's Report

---

### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

### 1 General Information:

Loyal Textiles Mills Limited ("the Company") is engaged in manufacturing of yarn, woven fabric, knitted fabric and technical clothing. The Company has manufacturing plants at Kovilpatti, Sattur, Cuddalore, Sivagangai in Tamilnadu, Khammam in Telangana, and Nellore in Andhra Pradesh. The Company is a public listed company and listed on The Bombay Stock Exchange.

### 2 Significant Accounting Policies:

#### Statement of Compliance:

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

#### Basis for Preparation and Presentation:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value: -

#### Derivative financial instruments –

Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)

The accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

#### (a) Inventories:

Inventories are valued at cost or net realizable value, whichever is lower. The cost in respect of the various items of inventory is computed as under:

- Raw materials, Stores & Spares are valued at weighted average basis. The cost includes cost of purchase and other costs incurred in bringing

the inventories to their present location and condition.

- Stock-in-process is valued at Cost and Finished goods are valued at Cost or Net Realisable value as Applicable - Cost includes applicable production overheads.
- Traded goods are valued at lower of Cost and Net Realizable Value.

The stock of saleable waste is valued at Net Realisable value.

Net Realisable Value (NRV) is the estimated selling price in the ordinary course of business less estimated cost of completion and estimated selling expenses necessary to make the sale.

Obsolete/non-moving Inventories are provided for to the extent of requirement and are stated at net realisable value.

#### (b) Cash flow statement:

The cash flow statement is prepared in accordance with the Indian Accounting Standard (Ind AS) - 7 "Statement of Cash flows" using the indirect method for operating activities, whereby net profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future operating cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the company are segregated.

#### (c) Use of Estimates and Judgements:

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made. Differences between actual results and estimates are recognised in the period in which the results are known/ materialised, and if material, their effects are disclosed in the Notes to the Financial Statements.

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

### (d) Revenue Recognition:

Revenue is recognized at the fair value of the consideration received or receivable. The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the entity.

Sales are recognized when goods are despatched and are recorded excluding Goods and Services Tax and recoveries as applicable.

Service / Process Charge is accounted on completed service contract method. Revenue from the sale of services is recognised on the basis of the stage of completion, right to receive the amount is clearly established and there is no uncertainty about its realisation. When the contract outcome cannot be measured reliably, revenue is recognised only to the extent that the expenses incurred are eligible to be recovered.

Interest income from financial asset is recognized when it is probable that the economic benefit will flow to the company and the amount of income can be measured reliably. Interest income is accrued on time basis by reference to principal outstanding using the effective interest rate method (EIR).

Dividend income on investments is recognized when the right to receive the payment is established and when no significant uncertainty as to the measurability or collectability exists.

Incentives receivable from Government is accounted on certainty of receipt.

Insurance claims are recognized on the basis of claims admitted / expected to be admitted and when there is no significant uncertainty exists with regard to the amount to be recovered and it is reasonable to expect ultimate collection.

Duty draw back claims and other export benefits are accounted on completion of exports, on complying with the rules of the scheme governing it based on eligibility and expected amount on realization.

### (e) Property, Plant And Equipment:

i) The Company has elected to consider carrying amount of all items of property, plant and equipments measured as per Indian GAAP as recognized in the financial statements as at the date of transition, as deemed cost at the date of transition. Deemed cost is the differential between the cost of the asset less the depreciation at the given date.

ii) Depreciation on Property, Plant and Equipment is provided over their useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013 on Straight Line method basis.

iii) Depreciation in respect of additions/sales has been provided pro-rata from the date of commissioning or till the date of sale as rounded off to the nearest month.

iv) The estimated useful lives, residual values and the depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

v) The increase / decrease in long term liability due to fluctuation in foreign currency in respect of imported Plant and Machinery, wherever applicable, beyond the date of commissioning is taken to Statement of Profit and Loss. Depreciation has been provided from the date of commissioning. The assets identified as obsolete and held for disposal are stated at their estimated net realisable values.

### (f) Intangible Assets:

Intangible assets are stated at cost less accumulated amount of amortization. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, etc. The amortization method and useful lives are reviewed periodically at end of each financial year.

### (g) Foreign Currency Transactions:

#### i) Functional and Presentation currency:

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which these entities operate, (i.e., the "functional currency"). The functional currency of the company is Indian Rupee. These financial statements are presented in Indian Rupee.

#### ii) Transaction and balances:

The foreign currency transactions are recorded, on initial recognition in the functional currency, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. The foreign currency monetary

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

items are translated using the closing rate at the end of each reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency shall be translated using the exchange rate at the date of the transaction. Exchange differences arising on translation/settlement are recognized as income or expense in the period in which they arise.

The Company enters into forward exchange contract to hedge its risk associated with Foreign currency fluctuations. The premium or discount arising at the inception of a forward exchange contract is amortized as expense or income over the life of the contract. In case of monetary items which are covered by forward exchange contract, the difference between the year end rate and rate on the date of the contract is recognized as exchange difference. Any profit or loss arising on cancellation of a forward exchange contract is recognized as income or expense for that year.

### (h) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### i) Initial Recognition and measurement:

On initial recognition, all the financial assets and liabilities are recognized at its fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability other than financial asset or financial liability that are measured at fair value through profit or loss. Transaction costs of financial assets and liabilities carried at fair value through the Profit and Loss are immediately recognized in the Statement of Profit and Loss. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

#### ii) Subsequent measurement

##### a. Non-derivative financial instruments :

- (i) **Financial assets carried at amortised cost:** A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual

terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### (ii) Financial assets at fair value through other comprehensive income (FVTOCI)

:A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### (iii) Financial assets at fair value through profit or loss (FVTPL):

A financial asset is measured at fair value through profit and loss unless it is measured at amortized cost or at fair value through other comprehensive income.

#### (iv) Investments in subsidiaries, joint ventures and associates:

The Company has adopted to measure investments in subsidiaries, joint ventures and associates at cost in accordance with Ind AS 27 and carrying amount as per previous GAAP at the date of transition has been considered as deemed cost in accordance with Ind AS 101.

#### (v) Financial liabilities:

The financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### b. Derivative financial instruments:

The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank. Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

Instruments. Any derivative that is either not designated as hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss. Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the statement of profit and loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets / liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

### c. Derecognition of financial instruments:

A financial asset is derecognized when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability is derecognized when the obligation specified in the contract is discharged or cancelled or expired.

### d. Fair value measurement of financial instruments:

The fair value of financial instruments is determined using the valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Based on the three level fair value hierarchy, the methods used to determine the fair value of financial assets and liabilities include quoted market price, discounted cash flow analysis and valuation certified by the external valuer. In case of financial instruments where the carrying amount approximates fair value due to the short maturity of those instruments, carrying amount is considered as fair value.

### (i) Employee Benefits:

- i) **Short term benefits:** The gross amounts are recognized as expense and to the extent unpaid it

is recognized as liability. Short term compensated absences are provided for based on internal assessment. Long term compensated absences are provided for based on actuarial valuation.

- ii) **Post-employment benefits:** Provident fund and other funds, being defined contribution schemes, the contributions are charged to the Statement of Profit and Loss of the year when the contributions, for the covered employees, to the respective government administered funds are due. Gratuity, being a defined benefit plan, the defined benefit obligations are provided for on the basis of an actuarial valuation made at the end of each financial year. Remeasurement comprising actuarial gains and losses, the effect of changes to the asset ceiling if applicable and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with the charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

- iii) **Other long term benefits:** Deferred employee benefits / deferred compensation and termination benefits are recognized as an expense as and when incurred. Payments made under the Voluntary Retirement Scheme are charged to the Statement of Profit and Loss in the year incurred. Actuarial gains / losses are immediately taken to the Statement of Profit and Loss and are not deferred.

### (j) Borrowing Costs:

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

### (k) Segment Reporting:

Operating segments are those components of the business whose operating results are regularly reviewed by the chief operating decision making body in the company to make decisions for performance assessment and resource allocation. The reporting

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

of segment information is the same as provided to the management for the purpose of the performance assessment and resource allocation to the segments.

The operating segments are the segments for which separate financial information is available. The Accounting policies adopted for segment reporting are in line with the accounting policy of the company.

The Company has identified two reportable operating segments viz., manufacturing and trading activities.

Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segments.

Pricing for Inter Segment transfers has been made, considering the normal internal business reporting system of the company at estimated realisable value.

Revenue, expenses, assets and liabilities which relate to the company as a whole and are not allocable to segment on reasonable basis are reported under unallocated revenue / expenses / assets / liabilities.

### (l) Leases:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. All other leases are operating leases.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that

the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

### (m) Earnings Per Share:

The basic earnings per share are computed by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, if found necessary.

### (n) Income Taxes:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future tax liability, is recognised as an asset viz. MAT Credit Entitlement, to the extent there is convincing evidence that the Company will pay normal tax in the future and it is highly probable that future economic benefits associated with it will flow to the Company during the specified period and that can be measured reliably.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Where there is deferred tax assets arising from carry forward of unused tax losses and unused tax created, they are recognised to the extent of deferred tax liability.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

### (o) Impairment of Assets:

#### (i) Financial assets

The company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal)

that is required to adjust the loss allowance at the reporting date to the amount that is required to be, recognised is recognized as an impairment gain or loss in statement of profit or loss.

#### (ii) Non-financial assets:

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash-Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

### (p) Provisions, Contingent Liabilities, and Contingent Assets:

#### Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are discounted, if the effect of the time value of money is material, using pre-tax rates that reflects the risks specific to the liability. When discounting is used, an increase in the provisions due to the passage of time is recognised as finance cost. These provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Necessary provision for doubtful debts, claims, etc., are made, if realisation of money is doubtful in the judgement of the management.

#### Contingent Liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

there is a liability that cannot be recognized because it cannot be measured reliably. Contingent liabilities are disclosed separately.

Show cause notices issued by various Government authorities are considered for evaluation of contingent liabilities only when converted into demand.

### **Contingent Assets:**

Where an inflow of economic benefits is probable, the Company discloses a brief description of the nature of the contingent assets at the end of the reporting period, and, where practicable, an estimate of their financial effect.

Contingent assets are disclosed but not recognised in the financial statements.

### **(q) Cash and Cash Equivalents:**

The Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with a maturity period of three months or less from the balance sheet date, highly liquid investments that are readily convertible into cash, which are subject to an insignificant risk of changes in value.

### **(r) Government Grants:**

The government grants are recognized only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in the statement of profit and loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate.

### **(s) Investment Property:**

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes).

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16 - Property, plant and equipments requirements for cost model. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Company depreciates investment property as per the useful life prescribed in Schedule II of the Companies Act, 2013.

Though the Company measures investment property using the cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation applying a valuation model. External valuers are involved, wherever necessary with the approval of Company's board of directors. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss in the period in which the property is derecognised.

### **(t) Intangible Assets:**

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives which are generally in accordance with those specified in Schedule II to Companies Act, 2013.

### 32) Financial Instruments

#### i) Capital management

The Company manages its capital to ensure the Company will be able to continue as going concern, while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The Company determines the amount of capital required on the basis of annual operating plans and long-term product and other strategic investment plans. The funding requirements are met through equity, internal accruals and both long-term and short-term borrowings.

The Company monitors the capital structure on the basis of total debt to equity and maturity profile of the overall debt portfolio of the company.

#### ii) Financial Risk Management

The principal financial assets of the Company include loans, trade and other receivables, and cash and bank balances that derive directly from its operations. The principal financial liabilities of the company, include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the company.

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

The Company is exposed to market risk, credit risk and liquidity risk. The Company's management oversees the management of these risks and advises on financial risks and the appropriate financial risk governance framework for the Company.

This note explains the risk which the company is exposed to and policies and framework adopted by the company to manage these risks.

### (a) Covid Risk

The company performed elaborate review exercise of its operations, strength & weakness in the light of Covid19 pandemic. The company's, ability and its preparedness to tackle the financial risk, market risk, customer risk, liquidity risk and credit risk were analyzed. In conclusion the company reckons that the core strength of the business operation, the past experience and the inherent strength in the efficiency of the facilities at our disposal will carry the company as a going concern. The company has resilience to tide over the short term impact the pandemic will have on the operations and also the overall impact it can have on the global scenario.

### (b) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise two types of risk: foreign currency risk, interest rate risk.

#### (i) Foreign Currency Risk

The company operates internationally and business is transacted in several currencies. The current year export sales of company comprise around 88% of the total sales of the company. Further the company also imports certain assets and material. The exchange rate between the Indian Rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently the company is exposed to foreign currency risks and the results of the company may be affected as the rupee appreciates/ depreciates against foreign currencies. Foreign exchange risk arises from the future probable transactions and recognized assets and liabilities denominated in a currency other than company's functional currency.

The company measures the risk through a forecast of highly probable foreign currency cash flows and manages its foreign currency risk by appropriately hedging the transactions.

Exchange rate exposures are managed through non derivative forward foreign exchange contracts.

#### (ii) Interest Rate Risk

The exposure to the risk of changes in market interest rates relates primarily to the debt obligations with floating interest rates. The company borrow funds from banks only at fixed rates, the rates are reviewed every year by the bank. The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates. Therefore there is no material interest risk relating to the company's financial liabilities.

### (c) Liquidity Risk

Liquidity Risk is the risk that the company may not be able to meet on its financial obligations as they become due. The objective of the liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as and when required. The finance management policy of the company includes an appropriate liquidity risk management framework for the management of the short-term, medium-term and long term funding and cash management requirements.

The company manages the liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast, future cash flows, and by matching the maturity profiles of financial assets and liabilities.

### (d) Credit Risk

Credit Risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to financial loss. The Company is exposed to credit risk from its operating activities which is primarily trade receivables.

The carrying amount of financial assets represents maximum credit exposure, being total of the carrying amount of balances with banks, short term deposits with banks, short term investment, trade receivables and other financial assets excluding equity investments.

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

### (e) Trade receivables

Trade receivables of the company are typically unsecured and derived from sale made to a large number of independent customers. Customer credit risk is managed by each business unit subject to established policies, procedures and control relating to customer credit risk management. Before accepting any new customer, the company has appropriate level of control procedures to assess the potential customer credit quality. The credit worthiness of its customers are reviewed based on their financial position, past experience and other facts. The credit period provided by the company to its customers generally ranges from 0-90 days. Outstanding customer receivables are reviewed periodically.

The credit related to the trade receivables is mitigated by taking security deposits/ bank guarantee/letter of credit- as and where considered necessary, setting appropriate credit terms and by setting and monitoring internal limits on exposure to individual customers.

There is no substantial concentration of the credit risk as the revenue / trade receivables pertaining to any of the single customer do not exceed 10% of company revenue.

# Independent Auditor's Report

## Independent Auditor's Report on Consolidated Ind AS Financial Statements

To  
The Members of Loyal Textile Mills Limited

### Opinion

We have audited the accompanying Consolidated Ind AS Financial Statements of **M/s. LOYAL TEXTILE MILLS LIMITED** (hereinafter referred to as the 'Holding Company') and its subsidiary Loyal International Sourcing Private Limited (Holding Company and its subsidiaries together referred to as "the Group"), its associates and jointly controlled entity, Gruppo P&P Loyal Spa, Italy which comprise the Consolidated Balance Sheet as at 31<sup>st</sup> March 2020, and the Consolidated statement of Profit and Loss (the consolidated statement of changes in equity), and the Consolidated statement of cash flows and the statement of changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Ind AS Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March 2020, and its Consolidated profit/loss, consolidated changes in equity and its consolidated cash flows for the year then ended.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statement section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under provision of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have no material matters or issues to be reported upon.

### Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these Consolidated Ind AS Financial Statements that give a true and fair view of the financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group including its Associates and Jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant Rules issued thereunder.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

### Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance

## Independent Auditor's Report

with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting we draw attention to note no. 32(ii)(a) in the financial statements along with the matters set forth to state that there is no material uncertainty that exists which may cast significant doubt on the company's ability to continue as a going concern. Our opinion is not modified in respect of this matter and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and jointly controlled entities to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and jointly controlled entities to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Independent Auditor's Report

### ANNEXURE "A" to the Independent Auditor's Report of even date on the Consolidated Ind AS Financial Statements of Loyal Textile Mills Limited

#### Report on the Internal Financial Controls under Clause (i) of Sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the Consolidated Ind AS financial statements of the company as of and for the year ended March 31, 2020, We have audited the internal financial controls over financial reporting of Loyal Textile Mills Limited (hereinafter referred to as "the Holding Company") its subsidiary LOYAL INTERNATIONAL SOURCING PRIVATE LIMITED, (the Holding Company and its subsidiary together referred to as "the Group"), which are the companies incorporated in India, as of that date.

#### Management's Responsibility for Internal Financial Controls:

The Holding Company's Board of Directors and the Board of Directors of the Subsidiary Company, which are the companies incorporated in India, as of that date, are responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India "(ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditor's Responsibility:

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting:

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Ind AS financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Independent Auditor's Report

### Opinion:

In our opinion, the Holding Company and its subsidiary company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial

Reporting issued by the Institute of Chartered Accountants of India".

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

### 1 General Information:

Loyal Textiles Mills Limited ( "the Company" ) is engaged in manufacturing of yarn, woven fabric, knitted fabric and technical clothing. The Company has manufacturing plants at Kovilpatti, Sattur, Cuddalore, Sivagangai in Tamilnadu, Khammam in Telangana, and Nellore in Andhra Pradesh. The Company is a public listed company and listed on The Bombay Stock Exchange.

### 2 Significant Accounting Policies:

#### Statement of Compliance:

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

#### Basis for Preparation and Presentation:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value: -

#### Derivative financial instruments –

Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)

The accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

#### (a) Inventories:

Inventories are valued at cost or net realizable value, whichever is lower. The cost in respect of the various items of inventory is computed as under:

- Raw materials, Stores & Spares are valued at weighted average basis. The cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

- Stock-in-process is valued at Cost and Finished goods are valued at Cost or Net Realisable value as Applicable - Cost includes applicable production overheads.
- Traded goods are valued at lower of Cost and Net Realizable Value.

The stock of saleable waste is valued at Net Realisable value.

Net Realisable Value (NRV) is the estimated selling price in the ordinary course of business less estimated cost of completion and estimated selling expenses necessary to make the sale.

Obsolete/non-moving Inventories are provided for to the extent of requirement and are stated at net realisable value.

#### (b) Cash flow statement:

The cash flow statement is prepared in accordance with the Indian Accounting Standard (Ind AS) - 7 "Statement of Cash flows" using the indirect method for operating activities, whereby net profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future operating cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the company are segregated.

#### (c) Use of Estimates and Judgements:

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made. Differences between actual results and estimates are recognised in the period in which the results are known/ materialised, and if material, their effects are disclosed in the Notes to the Financial Statements.

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

### (d) Revenue Recognition:

Revenue is recognized at the fair value of the consideration received or receivable. The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the entity.

Sales are recognized when goods are despatched and are recorded excluding Goods and Services Tax and recoveries as applicable.

Service / Process Charge is accounted on completed service contract method. Revenue from the sale of services is recognised on the basis of the stage of completion, right to receive the amount is clearly established and there is no uncertainty about its realisation. When the contract outcome cannot be measured reliably, revenue is recognised only to the extent that the expenses incurred are eligible to be recovered.

Interest income from financial asset is recognized when it is probable that the economic benefit will flow to the company and the amount of income can be measured reliably. Interest income is accrued on time basis by reference to principal outstanding using the effective interest rate method (EIR).

Dividend income on investments is recognized when the right to receive the payment is established and when no significant uncertainty as to the measurability or collectability exists.

Incentives receivable from Government is accounted on certainty of receipt.

Insurance claims are recognized on the basis of claims admitted / expected to be admitted and when there is no significant uncertainty exists with regard to the amount to be recovered and it is reasonable to expect ultimate collection.

Duty draw back claims and other export benefits are accounted on completion of exports, on complying with the rules of the scheme governing it based on eligibility and expected amount on realization.

### (e) Property, Plant And Equipment:

i) The Company has elected to consider carrying amount of all items of property, plant and equipments measured as per Indian GAAP as recognized in the financial statements as at the date of transition, as deemed cost at the date of transition. Deemed cost is the differential between the cost of the asset less the depreciation at the given date.

ii) Depreciation on Property, Plant and Equipment is provided over their useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013 on Straight Line method basis.

iii) Depreciation in respect of additions/sales has been provided pro-rata from the date of commissioning or till the date of sale as rounded off to the nearest month.

iv) The estimated useful lives, residual values and the depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

v) The increase / decrease in long term liability due to fluctuation in foreign currency in respect of imported Plant and Machinery, wherever applicable, beyond the date of commissioning is taken to Statement of Profit and Loss. Depreciation has been provided from the date of commissioning. The assets identified as obsolete and held for disposal are stated at their estimated net realisable values.

### (f) Intangible Assets:

Intangible assets are stated at cost less accumulated amount of amortization. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, etc. The amortization method and useful lives are reviewed periodically at end of each financial year.

### (g) Foreign Currency Transactions:

#### i) Functional and Presentation currency:

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which these entities operate, (i.e., the "functional currency"). The functional currency of the company is Indian Rupee. These financial statements are presented in Indian Rupee.

#### ii) Transaction and balances:

The foreign currency transactions are recorded, on initial recognition in the functional currency, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. The foreign currency monetary

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

items are translated using the closing rate at the end of each reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency shall be translated using the exchange rate at the date of the transaction. Exchange differences arising on translation/settlement are recognized as income or expense in the period in which they arise.

The Company enters into forward exchange contract to hedge its risk associated with Foreign currency fluctuations. The premium or discount arising at the inception of a forward exchange contract is amortized as expense or income over the life of the contract. In case of monetary items which are covered by forward exchange contract, the difference between the year end rate and rate on the date of the contract is recognized as exchange difference. Any profit or loss arising on cancellation of a forward exchange contract is recognized as income or expense for that year.

### (h) Financial Instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### i) Initial Recognition and measurement:

On initial recognition, all the financial assets and liabilities are recognized at its fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability other than financial asset or financial liability that are measured at fair value through profit or loss. Transaction costs of financial assets and liabilities carried at fair value through the Profit and Loss are immediately recognized in the Statement of Profit and Loss. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

#### ii) Subsequent measurement

##### a. Non-derivative financial instruments :

###### (i) Financial assets carried at amortised cost:

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give

rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### (ii) Financial assets at fair value through other comprehensive income (FVTOCI) :

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### (iii) Financial assets at fair value through profit or loss (FVTPL):

A financial asset is measured at fair value through profit and loss unless it is measured at amortized cost or at fair value through other comprehensive income.

###### (iv) Investments in subsidiaries, joint ventures and associates:

The Company has adopted to measure investments in subsidiaries, joint ventures and associates at cost in accordance with Ind AS 27 and carrying amount as per previous GAAP at the date of transition has been considered as deemed cost in accordance with Ind AS 101.

###### (v) Financial liabilities:

The financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### b. Derivative financial instruments:

The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank. Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated as hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss. Derivatives not designated

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the statement of profit and loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets / liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

### c. Derecognition of financial instruments:

A financial asset is derecognized when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability is derecognized when the obligation specified in the contract is discharged or cancelled or expired.

### d. Fair value measurement of financial instruments:

The fair value of financial instruments is determined using the valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Based on the three level fair value hierarchy, the methods used to determine the fair value of financial assets and liabilities include quoted market price, discounted cash flow analysis and valuation certified by the external valuer. In case of financial instruments where the carrying amount approximates fair value due to the short maturity of those instruments, carrying amount is considered as fair value.

### (i) Employee Benefits:

i) **Short term benefits:** The gross amounts are recognized as expense and to the extent unpaid it is recognized as liability. Short term compensated absences are provided for based on internal assessment. Long term compensated absences are provided for based on actuarial valuation.

ii) **Post-employment benefits:** Provident fund and other funds, being defined contribution schemes, the contributions are charged to the Statement of Profit and Loss of the year when the contributions, for the covered employees, to the respective government administered funds are due. Gratuity, being a defined benefit plan,

the defined benefit obligations are provided for on the basis of an actuarial valuation made at the end of each financial year. Remeasurement comprising actuarial gains and losses, the effect of changes to the asset ceiling if applicable and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with the charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

iii) **Other long term benefits:** Deferred employee benefits / deferred compensation and termination benefits are recognized as an expense as and when incurred. Payments made under the Voluntary Retirement Scheme are charged to the Statement of Profit and Loss in the year incurred. Actuarial gains / losses are immediately taken to the Statement of Profit and Loss and are not deferred.

### (j) Borrowing Costs:

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

### (k) Segment Reporting:

Operating segments are those components of the business whose operating results are regularly reviewed by the chief operating decision making body in the company to make decisions for performance assessment and resource allocation. The reporting of segment information is the same as provided to the management for the purpose of the performance assessment and resource allocation to the segments.

The operating segments are the segments for which separate financial information is available. The Accounting policies adopted for segment reporting are in line with the accounting policy of the company.

The Company has identified two reportable operating segments viz., manufacturing and trading activities.

Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segments.

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

Pricing for Inter Segment transfers has been made, considering the normal internal business reporting system of the company at estimated realisable value.

Revenue, expenses, assets and liabilities which relate to the company as a whole and are not allocable to segment on reasonable basis are reported under unallocated revenue / expenses / assets / liabilities.

### (l) Leases:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. All other leases are operating leases.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

### (m) Earnings Per Share:

The basic earnings per share are computed by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Diluted EPS is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have

been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares, if found necessary.

### (n) Income Taxes:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future tax liability, is recognised as an asset viz. MAT Credit Entitlement, to the extent there is convincing evidence that the Company will pay normal tax in the future and it is highly probable that future economic benefits associated with it will flow to the Company during the specified period and that can be measured reliably.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised. Where there is deferred tax assets arising from carry forward of unused tax losses and unused tax created, they are recognised to the extent of deferred tax liability.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

### (o) Impairment of Assets:

#### (i) Financial assets

The company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be, recognised is recognized as an impairment gain or loss in statement of profit or loss.

#### (ii) Non-financial assets:

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or Cash-Generating Unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or

groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

### (p) Provisions, Contingent Liabilities, and Contingent Assets:

#### Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are discounted, if the effect of the time value of money is material, using pre-tax rates that reflects the risks specific to the liability. When discounting is used, an increase in the provisions due to the passage of time is recognised as finance cost. These provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Necessary provision for doubtful debts, claims, etc., are made, if realisation of money is doubtful in the judgement of the management.

#### Contingent Liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. Contingent liabilities are disclosed separately.

Show cause notices issued by various Government authorities are considered for evaluation of contingent liabilities only when converted into demand.

#### Contingent Assets:

Where an inflow of economic benefits is probable, the Company discloses a brief description of the nature of the contingent assets at the end of the reporting period, and, where practicable, an estimate of their financial effect.

Contingent assets are disclosed but not recognised in the financial statements.

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

### (q) Cash and Cash Equivalents:

The Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with a maturity period of three months or less from the balance sheet date, highly liquid investments that are readily convertible into cash, which are subject to an insignificant risk of changes in value.

### (r) Government Grants:

The government grants are recognized only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in the statement of profit and loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate.

### (s) Investment Property:

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes).

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16 - Property, plant and equipments requirements for cost model. The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at

intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Company depreciates investment property as per the useful life prescribed in Schedule II of the Companies Act, 2013.

Though the Company measures investment property using the cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation applying a valuation model. External valuers are involved, wherever necessary with the approval of Company's board of directors. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss in the period in which the property is derecognised.

### (t) Intangible Assets:

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives which are generally in accordance with those specified in Schedule II to Companies Act, 2013.

#### ii) Financial Risk Management

The principal financial assets of the Company include loans, trade and other receivables, and cash and bank balances that derive directly from its operations. The principal financial liabilities of the company, include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the company.

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

The Company is exposed to market risk, credit risk and liquidity risk. The Company's management oversees the management of these risks and advises on financial risks and the appropriate financial risk governance framework for the Company.

This note explains the risk which the company is exposed to and policies and framework adopted by the company to manage these risks.

### (a) Covid Risk

The company performed elaborate review exercise of its operations, strength & weakness in the light of Covid19 pandemic. The company's, ability and its preparedness to tackle the financial risk, market risk, customer risk, liquidity risk and credit risk were analyzed. In conclusion the company reckons that the core strength of the business operation, the past experience and the inherent strength in the efficiency of the facilities at our disposal will carry the company as a going concern. The company has resilience to tide over the short term impact the pandemic will have on the operations and also the overall impact it can have on the global scenario.

### (b) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise two types of risk: foreign currency risk, interest rate risk.

#### (i) Foreign Currency Risk

The company operates internationally and business is transacted in several currencies. The current year export sales of company comprise around 88% of the total sales of the company. Further the company also imports certain assets and material. The exchange rate between the Indian Rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently the company is exposed to foreign currency risks and the results of the company may be affected as the rupee appreciates/ depreciates against foreign currencies. Foreign exchange risk arises from the future probable transactions and recognized assets and liabilities denominated in a currency other than company's functional currency.

The company measures the risk through a forecast of highly probable foreign currency cash flows and manages its foreign currency risk by appropriately hedging the transactions.

Exchange rate exposures are managed through non derivative forward foreign exchange contracts.

#### (ii) Interest Rate Risk

The exposure to the risk of changes in market interest rates relates primarily to the debt obligations with floating interest rates. The company borrow funds from banks only at fixed rates, the rates are reviewed every year by the bank. The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates. Therefore there is no material interest risk relating to the company's financial liabilities.

### (c) Liquidity Risk

Liquidity Risk is the risk that the company may not be able to meet on its financial obligations as they become due. The objective of the liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as and when required.

The finance management policy of the company includes an appropriate liquidity risk management framework for the management of the short-term, medium-term and long term funding and cash management requirements. The company manages the liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast, future cash flows, and by matching the maturity profiles of financial assets and liabilities.

### (d) Credit Risk

Credit Risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to financial loss. The Company is exposed to credit risk from its operating activities which is primarily trade receivables.

The carrying amount of financial assets represents maximum credit exposure, being total of the carrying amount of balances with banks, short term deposits with banks, short term investment, trade receivables and other financial assets excluding equity investments.

## Notes accompanying the Financial Statements for the year ended 31<sup>st</sup> March, 2020

### (e) Trade receivables

Trade receivables of the company are typically unsecured and derived from sale made to a large number of independent customers. Customer credit risk is managed by each business unit subject to established policies, procedures and control relating to customer credit risk management. Before accepting any new customer, the company has appropriate level of control procedures to assess the potential customer credit quality. The credit worthiness of its customers are reviewed based on their financial position, past experience and other facts. The credit period provided by the company to its customers generally ranges from 0-90 days. Outstanding customer receivables are reviewed periodically.

The credit related to the trade receivables is mitigated by taking security deposits/ bank guarantee/letter of credit- as and where considered necessary, setting appropriate credit terms and by setting and monitoring internal limits on exposure to individual customers.

There is no substantial concentration of the credit risk as the revenue / trade receivables pertaining to any of the single customer do not exceed 10% of company revenue.
